

RESEARCH

BLUEPRINT

Axia Client Portal.

A deep research deliverable covering how **200+ agency types** — marketing, creative, ad, web development — can use a token-based client portal to **save hours, cut cost, and protect scope creep**. Includes competitor teardowns across 5 categories, an ideal-state architecture, prioritized feature backlog, and a 12-week implementation roadmap scoped against the current **/workspace/:token** MVP.
